11/14/2017 Events

The State Agency on Intellectual Property (AGEPI) organized, on November 14, an information seminar entitled “Legal Protection and Use of Intellectual Property”, for pupils of the Centre of Excellence in Economics and Finance of Chisinau (CEEF). The event was attended by approximately 60 pupils of the 10th and 11th grades.

The seminar aimed to familiarize pupils with the national system of protection and use of intellectual property.

According to the program, Andrei Moisei, coordinating specialist, AGEPI Training Division, provided pupils with information on best practices and ways of legal protection of intellectual creations. He also spoke to pupils about the role of intellectual property in developing an innovative business.

About the ways of management, evaluation and evidence of intellectual property spoke to the participants Iurie Badar, Head of the AGEPI Training Division, who elucidated the economic value of the intellectual property objects as intangible assets for economic development.

The information seminar ended with a question and answer session. Finally, the pupils were pleased with the information presented by the AGEPI specialists and showed interest in participating in such events.
