EU Project experts presented beta version of the IPR E-learning platform

Experts of the EU Project ”Support to Enforcement of the Intellectual Property Rights” in the Republic of Moldova presented the new E-learning platform in the field of intellectual property rights (IPR) to AGEPI specialists, in a seminar organized between 15-16 October.

The e learning platform has included already five core courses in Intellectual Property Management: trademarks, patents, inventions, industrial design, copyrights, including multimedia lessons and a user guide. The platform will also have an IPR course of World Intellectual Property Organization (WIPO). E-learning will be accessible in Romanian language and available on any mobile device without a prior installation by an user friendly interface.

According to experts, the E-learning educational platform will open up possibilities for distance IPR learning for pupils, students, teachers, lecturers as well as for specialists from AGEPI, public authorities with responsibilities in IPR enforcement, business environment etc. At the end of courses, the beneficiaries will be able to test their knowledge and downloaded certificates proofing when have passed the test. The E-learning platform is going to be completed and fully launched in near future. After the handover it will be managed and promoted by AGEPI.

The EU Project ” Support to Enforcement of the Intellectual Property Rights” in the Republic of Moldova is funded by the European Union and implemented by Consortium of Archidata LLC (Italy), European Profiles S.C. (Greece) and Business and Strategies in Europe (Belgium). The project has a duration of two years and ends in November 2018.
