07/28/2021 Information

Users of the Madrid System may now manage all transactions relating to changes in holder's details and the recording of renunciations, via the **WIPO IP Portal** [1].

(https://ipportal.wipo.int/ [1]).

Change in Holder Details

This service [2] allows you to change the holder's name, address and contact details, as well as their legal nature, as recorded in the International Register.

The service is an **electronic version of the MM9 form** and the change can be performed entirely online.

Renunciation

This service [3] allows you to abandon the effects of your international registration for all the goods and services in respect of some (but not all) of the designated Contracting Parties.

The service is an **electronic version of the MM7 form** and the renunciation can be performed entirely online.

For details you can consult the website of the World Intellectual Property Organization (WIPO) https://www.wipo.int/madrid/en/news/2021/news_0020.html [4].
