04/04/2023 Events

The 2023 edition of the International Specialized Exhibition (ISE) INFOINVENT will be organized in the period November 22-24, in virtual format. This is the decision of the Organizing Committee of ISE “INFOINVENT” convened by the State Agency on Intellectual Property (AGEPI), today, April 4.

AGEPI representatives, together with the members of the Organizing Committee from the Ministry of Education and Research (MER), the Ministry of Culture (MC), the Academy of Sciences of Moldova (ASM), the International Exhibition Center (IEC) MOLDEXPO J.S.C., the Chamber of Commerce and Industry of the Republic of Moldova, the National Agency for Research and Development (NARD), the National Agency for Quality Assurance in Education and Research (NAQAER), the Technical University of Moldova (TUM) discussed and agreed the activities regarding the organization of the event.

The exhibition, which is already in its 18th edition, is organized every two years and represents an important forum of intellectual property, creativity and innovation in the Republic of Moldova.

The purpose of the event is to promote the activity of research, innovation and development of new technologies, the attraction of investments in the innovation and technology transfer activity, the development of international technical-scientific cooperation and the creation of partnerships between the academic and business sectors.

Participants in INFOINVENT will have the opportunity to present their inventions, projects and innovative services, to interact online with specialists in the field and to establish new contacts.

In addition, the program of manifestations related to the exhibition will also include other interactive events, with the aim of promoting the importance and value of intellectual property and innovations for the economic development of the country.

The State Agency on Intellectual Property invites all inventors and researchers to participate in this specialized exhibition and to use this tool to promote their innovative projects with maximum efficiency.

Follow the official page of the event to stay up to date with all the relevant information and not to miss this opportunity to present your innovative inventions, projects and services.
