09/29/2025 Events

The State Agency on Intellectual Property (AGEPI) participated on September 26, this year, in the International Specialized Exhibition (ISE) “MoldMedizin&MoldDent”, 28th edition, held from 25 to 27 September 2025 at the International Exhibition Center “Moldexpo”. The event was organized by Moldexpo, with the official support of the Ministry of Health of the Republic of Moldova, in partnership with the “Sante” Medical Center, the Association of Dentists of the Republic of Moldova and the Association “Medicine - Healthy Lifestyle” of the Republic of Moldova.

AGEPI’s participation in this event represented an important opportunity to promote the national intellectual property protection system, especially in the context of its applicability in the medical field. AGEPI specialists provided free consultation to participants, explaining the importance of protecting innovative creations, trademarks, inventions and industrial design in the healthcare sector. Informative and promotional materials on intellectual property rights were also distributed.

The exhibition brought together over 50 exhibitors from the Republic of Moldova, Romania and other countries, becoming an essential platform for presenting innovations, cutting-edge technologies and current trends in the medical field. “MoldMedizin” highlighted sophisticated equipment, medical consumables, pharmaceutical products, solutions for maternal and child health, aesthetic medicine and personal hygiene.

This year’s edition also included the “Healthy life expo” project, which expanded the event’s theme through interactive lessons on healthy lifestyles, supported by nutritionists and dietitians, sports activities and a flash-mob in the form of a marathon to the “Valea morilor” lake. In addition, the Association of Massage and Rehabilitation Therapists of Moldova offered visitors physiotherapy sessions, massages, meditation and other relaxation activities.

During the exhibition, there were also conferences, roundtables, workshops and courses in which current topics in medicine and dentistry were addressed.
