10/29/2012 Events

On 24-27 October 2012, AGEPI participated with an information stand at the International Specialized Exhibition-Fair of Products, Equipment, Agricultural Technologies and Crafts "Farmer", fifteenth jubilee edition.

The exhibition "Farmer-2012" was held concurrently with the exhibition "Moldagrotech", which are among the most important and prestigious events organized by IEC "Moldexpo", in which we tried to reflect the key trends in the development of agro-industrial complex of the Republic of Moldova.

Being on its fifteenth edition, the exhibition "Farmer-2012", brought together over 200 participants fr om 5 countries (Moldova, Germany, Greece, Romania and Ukraine), who presented the latest products and technologies necessary for the efficient activity of the agricultural companies, farms and husbandries, and a wide variety of agricultural products.

This year, 20 new participants presented their products and services at the stands of the exhibition Farmer. For the first time was organized the "Animal Show", wh ere were presented new, exotic breeds of cattle, pigs and poultry.

During the four days of the exhibition was also held a series of theme seminars for farmers.

AGEPI participated with an informational stand offering qualified advice on how to protect IPO at home and abroad, distributing intellectual property protection materials to those interested in the given field.

Following discussions, it is supposed to organize seminars on IP at the premises of enterprises for a better familiarization of economic agents with the field of intellectual property and its benefits.
