A donation from the heart. Employees of the State Agency on Intellectual Property (AGEPI) have donated part of their salary to help a family with three children in the village of Lozova, Straseni district, which found itself on the roads after their home was engulfed in flames.

Thus, the Costovici family received a certificate worth over 46 thousand lei from the AGEPI employees, creative games and sweets for children. With the received money, the family can buy the materials needed in order to finish building the house. Owners hope that winter will already find them in their new house.

The Costovici family thanked whole-heartedly all people with big hearts from AGEPI, who contributed to this donation.

The house of the family from the village of Lozova was transformed into a heap of ruins following a fire in early September. The dwelling was the only roof over the head for owners and their three children, of six, seven and eight age. Despite the efforts of rescuers, who arrived at the scene, the fire destroyed everything in its way, and the whole family found itself on the roads.

The tragedy has mobilized many people who donated money and various goods for the family.
