26.09.2006 Evenimente

Recently AGEPI organized a quarterly meeting of the representatives in industrial property. The meeting was open by Stefan Novac, Director General of AGEPI. In the agenda there were included following questions: representation of the draft of the Law on the protection of plant varieties; new drafts in the Informational Technologies and amendments in the informational system of AGEPI; methods of providing the intellectual property; presentation of new books in the library of AGEPI.

As has told Ala Gushan, cief of the section Current necessities of the life, Chemistry (AGEPI), elaboration of the draft of the Law on the protection of plant varieties in the context of realization of measures on implementation of the plan of activities Republic of Moldova – European Union, with a scope of harmonizing the legislation.
