19.09.2022 События

The World Intellectual Property Organization (WIPO) is organizing on September 21 to 22 the 6th session of the WIPO Conversation on Intellectual Property and Frontier Technologies: Artificial Intelligence (AI) Inventions.

The purpose of the event is to create a discussion platform where new technologies and their implementation, trends and practices of patenting inventions created with the help of artificial intelligence, etc., will be analyzed.

The event encourages the exchange of information across all stakeholders - from intellectual property offices, inventors, lawyers, private enterprises, etc., and facilitates the transfer of knowledge and experiences between professionals, innovators, creators and other system participants.

Those wishing to participate online in this year’s WIPO Conversation are requested to pre-register at the following link: https://www.wipo.int/registration/en/form.jsp?registration_id=470 [1]

For additional details regarding the event as well as to familiarize yourself with its provisional program, go to: https://www.wipo.int/meetings/en/details.jsp?meeting_id=72090 [2]
