14.03.2025 События

The State Agency on Intellectual Property (AGEPI) participated in the 45th edition of the International Specialized Exhibition (ISE) “Moldagrotech (spring)”, which will be held from 12 to 15 March 2025, at Moldexpo. The spring edition of the exhibition is organized by the Moldexpo International Exhibition Center, in collaboration with the Ministry of Agriculture and Food Industry and with the subsidy support of the Entrepreneurship Development Organization (EDO). AGEPI’s participation in this event was an important opportunity to contribute to the promotion and dissemination of information in the field of intellectual property.

On 13 March this yar, AGEPI specialists provided free consultancy to participants on the national intellectual property protection system, with a special emphasis on the importance of protecting intellectual property in the agricultural industry. They also distributed information materials in the field of IP.

The event’s agenda also includes a series of conferences, seminars, and roundtables dedicated to producers, processors, and young farmers. Thus, AGEPI specialists participated in the National Scientific-Practical Conference entitled “Packaging and Labeling Requirements for Agricultural and Agri-Food Products in Accordance with EU Norms”, organized by the Agricultural and Rural Advisory Center. During the conference, AGEPI representatives presented information on the protection of intellectual property in the packaging and labeling of products, and answered questions from those present.

ISE “Moldagrotech (spring)” brings together over 60 exhibitors from the Republic of Moldova and ten other countries, becoming an essential platform for promoting innovations and advanced technologies in agriculture. The 45th edition is notable for its extensive international participation, with the presence of companies from countries such as the People’s Republic of China, Turkey, Latvia, Italy, Poland, Romania, Ukraine, Hungary and Bulgaria, along with dealers from the Republic of Moldova. An increase of approximately 20% in the presented novelties is estimated, reflecting the dynamics of the global agricultural sector.

The event provides a platform for interaction for agricultural producers, equipment and technology suppliers, experts and research institutions, with the aim of promoting innovation and increasing competitiveness in agriculture.
