The State Agency on Intellectual Property (AGEPI) participated in the Demo Day event organized within the Deeptech Academy: Lab-to-Market Programme, held on May 15, 2026, at iHub Green in Chisinau.

Deeptech Academy is an intensive program organized by Technovator, with the support of Innovate Moldova, supported by Sweden and the United Kingdom, dedicated to the development of innovative products and the strengthening of the innovation ecosystem in the Republic of Moldova.

During the program, the 20 participants accumulated 123 hours of practical training, working on applied projects and solutions oriented towards solving real challenges in industry and society. The activities included practical workshops, no-code/low-code laboratories and case study analyses.

During the Demo Day, 14 deeptech products with implementation and investment potential were presented, developed in areas such as EnergyTech, HealthTech, FoodTech, AgriTech, Telecom and Artificial Intelligence.

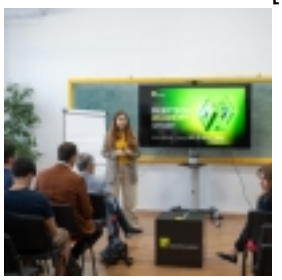

The event brought together representatives of the innovation community, entrepreneurs, experts and partners of the tech ecosystem, offering participants the opportunity to present their solutions, receive feedback and establish new professional connections.

On behalf of AGEPI, the event was attended by Andrei Moisei, principal specialist in the Promotion and Training Section.

By participating in such initiatives, AGEPI continues to support the promotion of innovation, creativity and the valorization of intellectual property among the technological and entrepreneurial community in the Republic of Moldova.
