10.11.2026 События

The State Agency on Intellectual Property (AGEPI) invites researchers, teachers, doctoral students, students and business representatives to participate in **InnoDays 2026**, an event dedicated to transforming research results into technologies, products and partnerships with economic and social impact.

Held from **16 to 20 November 2026**, in Chisinau, InnoDays brings together representatives of academia, startups, companies, technology transfer organizations and public authorities to identify effective mechanisms for using research results and strengthening cooperation between the scientific community and the economic sector.

This year's edition is structured around five thematic days and will address three priority areas of development: GreenTech, HealthTech and AgriFood. Participants will have the opportunity to explore models of cooperation between research and industry, discover innovative projects and initiate new partnerships oriented towards technology transfer and commercialization of research results.

InnoDays 2026 is held under the patronage of the Ministry of Economic Development and Digitalization and the Ministry of Education and Research.

The event is organized by Technovator [1],

in partnership with AGEPI, the Moldovan-Swiss Intellectual Property Project Swiss PartnershIP Moldova, the National Agency for Research and Development, Moldova Innovation Technology Park, Agrotek Park, Impact Hub Bucharest, Green Tech Hub, Technical University of Moldova, State University of Medicine and Pharmacy "Nicolae Testemitanu" and other relevant actors of the innovation ecosystem.

As a partner, AGEPI will contribute to the activities scheduled especially for November 17 and 19, days dedicated to green technologies, technology transfer and strengthening cooperation between academia and the business sector. Representatives of the Agency will participate in debates and thematic sessions on the role of intellectual property in the innovation process, the protection of research results and their valorization through technology transfer and commercialization.

AGEPI's participation in InnoDays 2026 reflects the institution's commitment to supporting the development of a competitive national innovation ecosystem, in which intellectual property is an essential tool for transforming knowledge and research results into economic and social value.

AGEPI encourages the research, innovation and entrepreneurship community to participate in this event and to use the opportunities for cooperation, protection of intellectual property and technology transfer offered within InnoDays 2026.

The full program and registration for the event are available on the official InnoDays page: innodays.technovator.world [2].
