The Mission aims to make a sustainable contribution to the development of border-management procedures that meet European Union standards and serve the legitimate needs of Moldovan and Ukrainian citizens, travellers, and trade, which in turn enhances regional security and supports economic development.

The European Union Border Assistance Mission to Moldova and Ukraine (EUBAM) was launched on 30 November 2005 following a request made jointly to the European Commission by the presidents of the Republic Moldova and Ukraine.

EUBAM is an advisory, technical body mandated to enhance the border-management capacities of our partners – the border guard and customs authorities and other law enforcement and State agencies of Moldova and Ukraine.

On a broader context and within the framework of the European Neighbourhood Policy, EUBAM is a unique instrument by which the EU strives on the one hand to encourage the movement of legitimate trade and travel, and on the other hand to guarantee security for its citizens and tackle criminality.
